### NOTICE OF INTENT TO DISCONNECT SERVICE

MONTH 99, 9999

Customer Name Mailing Address City, State 99999-9999

Account Number: 9999999-9

Dear Customer First Name,

Our records show your utility account with us is overdue in the amount shown below:

Disconnect Amount \$999,999.99 Total Amount Of Bill \$999,999.99

We are willing to work with you to resolve the payment of your utility account. Please call a collection representative at our 24-hour Customer Service Center 1-800-245-6977.

Unless payment of \$999,999.99 is received prior to Month 99, 9999 service will be disconnected. If service is disconnected, it will not be restored without payment of your bill and a reconnection fee.

You have the right to appeal the company's decision to the South Dakota Public Utilities Commission, 500 East Capital, Pierre, SD 57501, telephone number 1-800-332-1782.

Residential disconnection may be postponed for one thirty-day period by presenting, prior to disconnection, a physician's certificate stating that disconnection would aggravate a resident's existing illness or handicap.

If you believe that some or all of the charges are in error, we encourage you to contact us to discuss the disputed charges. If we can not resolve the dispute, you should pay the undisputed portion of the bill and then appeal the disputed amount to the South Dakota Public Utilities Commission.

Sincerely, NWPS Collection Department

### NOTICE OF INTENT TO DISCONNECT SERVICE

MONTH 99, 9999

Customer Name Mailing Address City, State 99999-9999

Account Number: 9999999-9

Dear Customer First Name,

Our records show your utility account with us is overdue in the amount shown below:

Disconnect Amount \$999,999.99 Total Amount Of Bill \$999,999.99

We are willing to work with you to resolve the payment of your utility account. Please call a collection representative at our 24-hour Customer Service Center 1-800-245-6977.

Unless payment of \$999,999.99 is received prior to Month 99, 9999 service will be disconnected. Also, service will be disconnected unless an additional payment of \$999,999.99 is received prior to Month 99, 9999. If service is disconnected, it will not be restored without payment of your bill and a reconnection fee. During the months of November through March, this notice includes an additional 30 days before disconnection.

You have the right to appeal the company's decision to the South Dakota Public Utilities Commission, State Capital Building, Pierre, SD 57501, telephone number 1-800-332-1782.

Residential disconnection may be postponed for one thirty-day period by presenting, prior to disconnection, a physician's certificate stating that disconnection would aggravate a resident's illness or handicap.

If you believe that some or all of the charges are in error, we encourage you to contact us to discuss the disputed charges. If we can not resolve the dispute, you should pay the undisputed portion of the bill and then appeal the disputed amount to the South Dakota Public Utilities Commission.

Dear Customer First Name,

Per our recent conversation you ("customer"), and Northwestern Public Service Company have agreed to the following terms and conditions of the utility bill payment arrangement schedule:

1. Customer agrees to pay Northwestern for utility services billed to customer as well as any additional charges upon such sum. The payment schedule that Northwestern and customer have agreed to is.

 Date Due:
 99/99/9999
 Amount Due:
 \$999,999.99

 Date Due:
 99/99/9999
 Amount Due:
 \$999,999.99

- $2\,.$  Customer agrees to make all scheduled payments on the dates specified.
- 3. Northwestern Public Service agrees not to disconnect utility service to customer at the above address so long as customer makes timely payments according to the payment schedule.
- 4. Customer agrees that if he or she fails to meet the payment schedule, Northwestern may, without further notice, disconnect utility service to customer.

Sincerely, NWPS Collection Department

### Dear Customer:

We're happy to serve you. We base our Company's reputation on providing the very best in customer service, and we encourage you to contact us whenever you need help with your utility service.

This booklet was designed to help you understand your rights and responsibilities as our residential customer and our rights and responsibilities as your electric and/or natural gas supplier. Also included are the steps to follow if you have a question, request or complaint.

If you want to contact the nearest NWPS office, simply refer to your local telephone directory, where you will find the office address and telephone number. For emergencies during non-office hours, call the emergency number listed under Northwestern Public Service Company.

We consider it a privilege to serve you.

ClWUKers R.A. Wilkens

President &

Chief Executive Officer

Northwestern Public Service Company

### ABOUT OUR COMPANY

Northwestern Public Service Company is an electric and natural gas utility engaged in generating, transmitting, distributing, and selling electric energy, and in distributing and selling natural gas. (The following are statistics as of December 31, 1991.)

South Dakota Communities

Served Electrically......108 South Dakota

(including approx. 1,700 farm customers)

South Dakota Communities

Served with Natural Gas......35 South Dakota

Gas Customers......30,947

Nebraska Communities Served with Natural Gas.....4

Nebraska

Number of

Employees......Nearly 455

NWPS is an investor-owned energy company, owned by 8,000 stockholders from all parts of the country.

### **PUC REGULATION**

Northwestern Public Service Company is regulated by the South Dakota Public Utilities Commission whose duties were expanded in 1975 to include regulation of natural gas and electric utilities. It is the PUC's duty to oversee the rates and services of all public utilities in the state, including approval of all rate changes.

### **HOW YOU ARE BILLED**

Once a month you receive a bill from NWPS for the electricity or natural gas you have used the previous month. The bill is due when it is received.

The bill you receive for electric or natural gas service is based upon a meter reading or estimated energy use in the event your meter cannot be read. The bills are figured according to rates that have been approved by the PUC. An explanation of all items which appear on your monthly bill is readily available for your use on the reverse side of each bill vou receive.

### Electric

Electricity is measured and sold by kilowatt hour (KWH). A kilowatt hour represents the amount of electricity required to operate a 100-watt bulb for 10 hours.

The bill shows the present and previous readings of your electric meter. Subtracting the smaller figure from the larger figure will give you the amount of electricity you have used measured in KWH.

Your KWH consumed multiplied times the charge per KWH in the proper rate schedule will result in the amount you will pay for the electricity you have used. In addition to the above amount, a "fuel and purchased power adjustment" figure, a customer charge, and taxes are added to make up your complete monthly bill.

### **Natural Gas**

Natural gas is measured and sold by hundreds of cubic feet (CCF). The bill shows the present and previous readings of your gas meter. Subtracting the smaller figure from the larger figure will give you the CCF used since the last meter reading date.

Your CCF consumed multiplied times the charge per CCF in the proper rate schedule will result in the amount you will pay for the natural gas you have used. In addition to the above amount, purchased gas, peak shaving, BTU adjustments, a customer charge, and taxes are applied to complete the computation of your bill.

### AN ESTIMATED UTILITY BILL

You may receive an estimated bill when an NWPS employee cannot read your meter.

Estimated bills are indicated as such and are based upon your previous use of electricity or natural gas.

If you have questions about an estimated bill, please phone or stop at the nearest NWPS office. Every effort will be made to answer all of your questions.

### **PAYING YOUR BILL**

You may pay your bill by mail. A send-and-return envelope is included with your bill for this purpose. Send the part of your bill that is marked "PLEASE RETURN THIS PORTION WITH YOUR PAYMENT" along with your check or money order. We do not recommend sending cash through the mail.

You may also pay your bill personally at your local NWPS office. Please bring the entire bill with you.

If for any reason, you cannot pay your NWPS bill when it is due, please call your local NWPS office to explain the situation and to make arrangements for paying your bill.

### **BUDGET PAYMENT PLAN**

As a general rule, the area in which we live experiences seasonal extremes in both summer heat and winter cold. The result, of course, can be significant differences in your heating and air conditioning bills from month to month. With this in mind, NWPS offers you a way to avoid unusually high bills caused by heating and air conditioning by averaging them with lower bills. NWPS will estimate your annual energy usage and divide the payments into 12 equal parts with an adjustment based on actual use at the end of the period. This allows you to better budget your utility bills each month. If you are interested in the Budget Payment Plan, contact your nearest NWPS office.

### LATE PAYMENT CHARGE

NWPS has been authorized to include a "Late Payment Charge" on delinquent billings.

The charge was authorized because delinquent accounts create an added cost for all customers and not just those who create the problem.

1

Under the customer billing rules approved by the PUC, utility bills are due upon receipt.

If you need assistance in paying your utility bill, we will make every effort to help you. NWPS will assist eligible customers in obtaining financial aid offered through various governmental agencies and programs.

### **MEASURING YOUR ENERGY USAGE**

### Meter Reading

Normally, your electric and/or natural gas meter is read each month by an NWPS employee. This reading is made at intervals which coincide as closely as possible with a 30-day cycle. This monthly visit also gives our meter readers a periodic opportunity to inspect facilities used for natural gas and electric distribution and to make sure they are operating safely and efficiently.

### **Meter Testing**

NWPS conducts a regular program of periodic testing of customers' meters. In this testing, almost all meters are found to be very accurate. You may request NWPS to test the electric or gas meter, and you have the right to be present when the test is conducted. If the test request is made within a year after a previous request, you will be required to pay a deposit. The deposit will be refunded if the meter is found to have an error of 2% or more. The result of this test will be supplied to you within one week after the test is completed.

If a meter is found to have an error of 2% or more, a charge or refund covering the error will be made. The time period for this charge or refund may not exceed six months, unless it can be established that the error was due to some cause, the date of which can be fixed with reasonable certainty, in which case the refund or charge shall be computed from that date.

### **Metering Equipment**

NWPS furnishes customer meters; however, customers are required to furnish, install, and maintain their own meter mounting devices, such as meter sockets, meter pedestals, metering enclosures, and pressure regulating equipment.

### **CUSTOMER CONNECTION CHARGE**

NWPS has been authorized to include a "Customer Connection Charge" in its billing procedures. Use of the Customer Connection Charge will more accurately identify costs to NWPS's customers by assuring that those customers who are responsible for the expenses of connection or reconnection will pay for them. Under this policy, any customer who moves into or relocates within NWPS's service area and who requests utility service. will be assessed a service connection charge. That charge also applies to reconnection of service, as in the case of a meter which may have been temporarily disconnected. The charge will be \$10.00 for all connections made during normal business hours (8 a.m. to 5 p.m.). Monday through Friday, excluding legal holidays) and \$15.00 for connections made during other hours. The charge will be included on the customer's first utility bill after the connection is made.

### **CONTINUITY OF SERVICE**

NWPS attempts to provide continuous service but cannot guarantee an uninterrupted or undisturbed supply of electric or natural gas service. The Company is not responsible for any loss or damage resulting from the interruption or disturbance of service for any cause other than gross negligence by NWPS or its employees, and NWPS is not liable for any loss of profits or other consequential damages resulting from the use of service or any interruption or disturbance of service. NWPS urges its customers to install regulating or protective devices to protect their appliances from potential damage from interruptions in energy supply or fluctuations in service from NWPS.

NWPS thinks it is important that you are satisfied with your electric or natural gas service. However, sometimes a question, misunderstanding, or complaint may develop. If it does, please let us know. In most cases, the problem will be solved through a visit or phone call to your nearest NWPS office. Our employees are trained to help you.

NWPS will make a full and prompt investigation of all complaints received. Please address all written complaints to the Division Manager at your nearest NWPS Division office. The address is listed in your local telephone directory.

### IN CASE OF A DISPUTE

Whenever a customer advises NWPS before the disconnection of electric or natural gas service that any part of the billing, charges, or service is in dispute, NWPS shall:

- 1. Investigate the dispute promptly;
- 2. Advise the customer of the investigation and its result;
- 3. Attempt to resolve the dispute; and
- Withhold disconnection of service during such investigation, provided the customer pays the undisputed portion of the bill.

If the dispute is not resolved, NWPS will notify the customer that he or she may appeal to the PUC within ten (10) working days after the disconnection notice was sent for resolution of the dispute.

### **ESTABLISHING UTILITY CREDIT**

Most customers of NWPS are prompt in paying their monthly bills, a fact which we appreciate very much. Some customers, however, seem to find it difficult to maintain a prompt payment record. In cases such as these, NWPS has found it necessary to establish certain policies and procedures to deal with non-payment of bills. These policies and procedures are designed to protect not only NWPS, but also the customers who do pay their bills promptly.

The credit history of anyone applying for service with NWPS will be reviewed. If a customer demonstrates satisfactory credit by traditional means or by providing his payment history with his prior utility company, no security deposit will be required. A customer who does not establish satisfactory credit will be required to establish credit by one of the three means listed below. If a deposit is required of a customer, it will be returned with interest at the end of any twelve-month period during which the customer has demonstrated satisfactory credit, as defined below.

A present customer who has had one or more disconnections of service in the last year, or three or more disconnection notices in the last year, or has an undisputed outstanding debt with NWPS, shall be deemed to have demonstrated unsatisfactory credit. In the event that a customer demonstrates unsatisfactory credit, NWPS will require that the customer:

 Make a cash deposit of one-sixth (1/6) of the customer's estimated annual bill. Deposits will earn seven percent (7%) simple interest per year from the date of deposit to the date of disconnection; or

- 2. Provide a guarantor; or
- Be placed on an early payments list wherein the customer agrees to pay the bill for utility services within five (5) business days after it is received.

If a customer is unable to pay the full amount of the deposit, NWPS will accept payment of the deposit in reasonable installments not to exceed four months.

### **DISCONNECTION OF SERVICE**

If you want to have your electric or natural gas service disconnected as the result of moving or for some other reason, you should let NWPS know at least one business day before you want this discontinuation. You may do this by letter, by personal visit, or by a phone call to your local NWPS office.

Naturally, if a utility bill is not paid within a reasonable length of time, the customer who owes it cannot expect to continue to receive electric or natural gas service from NWPS.

We do not like to disconnect or refuse service to a customer, but sometimes it must be done. The customer will be notified before such action is taken if the reason is:

- 1. Non-payment of a utility bill:
- The customer has failed to pay a required deposit or meet the credit requirements;
- The customer has violated NWPS's rules on file with the PUC (these rules are available for customer inspection at any NWPS office);
- The customer has broken the terms of the contract for service with NWPS, or has failed to furnish those things necessary to obtain utility service;

- 5. The customer has failed to allow NWPS employees access to Company equipment located on customer premises for meter reading, inspection, maintenance, replacement of equipment, or to conduct investigations for hazardous conditions; or
- 6. Unauthorized use or tampering with NWPS's service equipment.

If at any time a hazardous condition is discovered, NWPS may immediately discontinue service until the hazardous condition is corrected. When possible, NWPS will attempt to provide advance notice of such discontinuance to all customers affected.

The following is a list of conditions, all of which are considered before a customer will be disconnected for non-payment of a bill:

- A customer may be receiving service from NWPS at more than one location. Only the service for which the bill is delinquent may be disconnected.
- 2. Bills are due when received. Bills become delinquent twenty (20) days after the billing date. This period may be shortened if the customer's name is on the early payments list. This time period may be waived in cases of fraud, illegal use, or when it is clearly indicated that the customer is preparing to leave. If a customer's bill becomes delinquent, NWPS will send that customer a written notice giving an additional ten (10) days in which to pay the bill to avoid disconnection.

- If this is the customer's first disconnection notice, NWPS will attempt to notify the customer by telephone, personal visit, or certified mail and will provide the customer information about his right to appeal to the PUC.
- If the customer has been unwilling to pay the bill in full or enter into a reasonable agreement with NWPS to pay the service bill, service will be disconnected.
- 5. No disconnection will be made if a bona fide or just dispute concerning the bill exists. A dispute is only defined as bona fide and just if the customer pays the undisputed portion of the bill and contacts the PUC with the unresolved dispute within ten (10) working days after the disconnection notice was sent.
- Residential disconnection may be postponed for one 30-day period by presenting a physician's certificate stating that disconnection would aggravate a resident's existing medical emergency.
- 7. Residential disconnection will not be made from November 1 to March 31 without adding to the time periods of paragraph 2 an additional 30 days.
- 8. Electric or natural gas service will not be disconnected on any Friday, Saturday, Sunday, or legal holiday, or at any time when NWPS's business offices are not open to the public.
- 9. If a customer receives both gas and electric service from NWPS, he may have payments applied to either the gas or electric portion of his bill in order to avoid disconnection of that service.

10. In a landlord-tenant situation, where the meter is in the landlord's name, NWPS will not disconnect the utility service until the tenant has been offered the opportunity to put the electric or natural gas service in his or her name, where it is economically feasible to do so, and the tenant has turned down this offer.

### THIRD PARTY NOTIFICATION

Any customer may designate in writing the name, address, and telephone number of a third party to be notified in the event that utility service is to be discontinued for non-payment. NWPS will maintain a record of such third-party designations and will give notice of such proposed disconnection to the third party named by the customer. Such third-party designations may be guardians, relatives, friends, or others.

### **CALL BEFORE DIGGING**

struction on or near your property, please call the local NWPS office 24 hours in advance for location of underground distribution facilities.

#### FINAL NOTICE OF INTENT TO DISCONNECT SERVICE

MONTH 99, 9999

Customer Name Mailing Address City, State 99999-9999

Account Number: 9999999-9

Dear Customer First Name,

Our records show your utility account with us is overdue in the amount shown below:

Disconnect Amount \$999,999.99 Total Amount Of Bill \$999,999.99

We recognize that from time to time customers have temporary financial problems making it difficult to pay bills promptly. We are willing to work with you to resolve the payment of your utility account. Please call our 24-hour Customer Service Center 1-800-245-6977 to make payment arrangements.

We regret that unless payment or arrangements for payment of your overdue account is made prior to 99/99/9999, service will be disconnected. Once service is disconnected, in addition to payment of the utility bill, a reconnection fee of \$42.00 plus tax during business hours (\$63.00 plus tax after business hours) is required before your utility service is restored.

If you believe that some or all of the charges are in error, we encourage you to contact us to discuss the disputed charges.

If we can not resolve the dispute, you should pay the undisputed portion of the bill. South Dakota customers have the right to appeal the unresolved dispute to the SD Public Utilities Commission, 500 East Capitol, Pierre, SD 57501, telephone number 1-800-332\*1782.

Please disregard this notice if payment of your overdue account has already been made and thank-you for you cooperation.

Sincerely, NWPS ColleÇtion Department

Dear Customer First Name,

Paying your Northwestern Public Service Company bill is important. Northwestern's Budget Payment Plan is a convenient way of paying the same amount each month. Because your budget account is two months past due, it is being removed from the Budget Payment Plan and your account is being billed in full. If you would like to discuss your account please contact a collection representative at our 24-hour Customer Service Center 1-800-245-6977.

Northwestern's Budget Payment Plan makes paying your monthly utility bill easy. To make this process even easier we offer Northwestern's Easy Bank Pay Plan. With Northwestern's Easy Bank Pay Plan your utility bill is automatically paid on the day you choose. To sign up for Northwestern's Easy Bank Pay Plan contact a customer service representative at our 24-hour Customer Service Center 1-800-245-6977.

Sincerely, NWPS Collection Department

Dear Customer First Name,

After reviewing our records, we noticed that within the past 12 months, you received three or more disconnection notices on your utility account or had service disconnected one or more times. According to our credit policy, this demonstrates unsatisfactory credit.

Because of this, your account has been set up to bill you a deposit equal to one sixth of your estimated annual utility billings. This deposit has been set up in the amount of \$9999.99. Your account will be billed in four installments of \$9999.99 beginning with your next bill.

To re-establish satisfactory credit with Northwestern Public Service Company, you must not have had service disconnected for nonpayment of a bill for services rendered and have received less than three disconnection notices for a twelve month period. Your deposit will automatically be refunded to your account for the full amount of the deposit plus interest upon re-establishment of satisfactory credit.

If you wish to discuss your account with a collection representative, please contact our 24-hour Customer Service Center at 1-800-245-6977.

CUSTOMERS

## Dear Customer:

We base our Company's reputation on providing the very best in customer service, and we encourage you to contact us whenever you need help with your utility service.

This booklet was designed to help you understand your rights and responsibilities as our customer and our rights and responsibilities as your electric and/or natural gas supplier. Also included are the steps to follow if you have a question, request or complaint.

If you want to contact the nearest NWPS office, simply refer to your local telephone directory, where you will find the office address and telephone number. For emergencies during non-office hours, call the emergency number listed under Northwestern Public Service Company.

We consider it a privilege to serve you.

DA Wilkons

President &

Chief Executive Officer

Northwestern Public Service Company

# **ABOUT OUR COMPANY**

Northwestern Public Service Company is an electric and natural gas utility engaged in generating, transmitting, distributing, and selling electric energy, and in distributing and selling natural gas. (The following are statistics as of February 29, 1992.)

South Dakota Communities

all parts of the country.

## **PUC REGULATION**

owned by approximately 8,000 stockholders from

Northwestern Public Service Company is regulated by the South Dakota Public Utilities Commission (PUC) whose duties were expanded in 1975 to include regulation of natural gas and electric utilities. It is the PUC's duty to oversee the rates and services of all public utilities in the state, including approval of all rate changes.

Address:

South Dakota Public Utilities

Commission 500 East Capitol

Pierre, South Dakota 57501

Phone:

(605) 773-3201 or 1-800-332-1782

# **HOW YOU ARE BILLED**

Once a month you receive a bill from NWPS for the electricity or natural gas you have used the previous month. The bill is due when it is received.

The bill you receive for electric or natural gas service is based upon a meter reading or estimated energy use in the event your meter cannot be read. The bills are figured according to rates that have been approved by the PUC. An explanation of all items which appear on your monthly bill is readily available for your use on the reverse side of each bill you receive.

# ELECTRIC SERVICE

## Energy Measurement

Electricity is measured and sold by kilowatt hour (KWH). A KWH represents the amount of energy required to operate a 100-watt bulb for 10 hours. Your bill shows the present and previous readings of your electric meter. Subtracting the previous reading from the present reading and applying any multiplier that may be shown will give you the amount of electricity you have used during the billing month.

#### Demand Measurement

For many NWPS commercial and industrial rate schedules, a customer's bill is determined by measuring the KWH of electricity consumed and the customer's measured demand. This demand is the average number of kilowatts (KW) used by the customer during the 15-minute period of maximum use during the billing month. The demand charge is designed to assign to a customer its share of NWPS's fixed investment in production, transmission, and distribution equipment required to meet the customer's maximum demand for electricity. For certain small commercial customers, a flat customer charge is used rather than a measured demand charge.

3

## · Power Factor Adjustment

NWPS may install metering equipment to letermine the average power factor of a sustomer's installation. Power factor is a measurement of the relationship between real power (the iseful power that does work) and apparent power volt-amperes needed to supply magnetizing curent which causes energy to flow through fluorescent lamps, motors, and transformers owned by the sustomer). If such average power factor is less han 95%, the customer's measured demand or nergy may be adjusted according to a formula rovided in NWPS's rate schedules. NWPS will vork with customers to help them achieve a 95% or higher average power factor.

## · Fuel and Purchased Power Adjustment

A customer's energy (KWH) charge is inreased or decreased to reflect changes in the cost of fuel used to generate electricity and energy purhases experienced by NWPS.

## Sales Taxes

In addition to the above items, state and local ales taxes, which are collected by NWPS and subnitted to the South Dakota Department of levenue, are added to make up your complete nonthly bill.

## · Cogeneration and Small Power Production

Under the Public Utility Regulatory Policies act of 1978, power production and cogeneration acilities which have received qualifying status rom the Federal Energy Regulatory Commission re authorized to make an interconnection with the lectric systems of public utilities, such as NWPS. o obtain further information about such an interconnection, contact your local NWPS office.

## Protection Service

NWPS cannot render service to any customer for the operation of any devices which have a detrimental effect upon the service rendered to other customers. NWPS will endeavor to cooperate with its customers when consulted concerning the intended use of any device.

Where the customer's use of electricity is intermittent or subject to violent fluctuations, NWPS reserves the right to require the customer to furnish at his own expense suitable equipment to reasonably limit such intermittence or fluctuation

This provision is not applicable to customers utilizing supplemental or alternative energy sources, unless such energy sources create an unsafe or damaging condition on the NWPS electric system or on the electric service provided to other customers.

#### Electric Motors

Individual motors over 1/2 horsepower and/or having a rating exceeding 7-1/2 amperes shall be connected to a 240 volt circuit. Single phase motors exceeding 5 horsepower and/or with locked rotor current exceeding 100 amperes shall not be connected to the NWPS system without prior NWPS approval.

# NATURAL GAS SERVICE

Natural gas is measured and sold in hundreds of subic feet (CCF). The bill shows the present and previous readings of your gas meter. Subtracting the previous reading from the present reading and applying any multiplier that may be shown will give you the CCF used since the last meter reading late.

#### Contract Demand

For many NWPS commercial and industrial irm rate schedules, a customer's bill is determined by measuring the CCF of gas consumed and the sustomer's CCF of daily contract demand. Such laily contract demand represents the firm gas rolumes contracted by the customer.

## Purchased Gas Cost Adjustment Clause

A customer's natural gas rate per CCF is inreased or decreased by an adjustment amount qual to any increase or decrease in the cost per CCF of natural gas purchased by NWPS.

## BTU Adjustment Clause

The rates to be charged by NWPS are for natural gas with a heating value of 1000 British Thermal Jnits (BTUs) per cubic foot. A customer's netered consumption in CCF volumes will be adusted upward or downward so that he is billed for in equivalent of 1000 BTUs per cubic foot.

## · Peak Shaving Adjustment

NWPS uses propane as a peak shaving fuel luring periods of heavy customer usage. The rates is approved by the PUC to be charged by NWPS include a base peak shaving propane fuel cost. A sustomer's metered consumption in CCF volumes will be adjusted upward or downward for the difference between the actual average peak shaving propane fuel cost and the base cost.

In addition to the above amounts, state and city sales taxes are applied to complete the computation of your bill.

## • Gas Transportation Service

NWPS offers firm and interruptible transportation service to its gas customers. Such transportation service is provided under NWPS's tariffs and a Transportation Service Agreement.

## Billing Day and Curtailment of Gas for Interruptible Customers

The billing day for the purpose of determining the amount of firm gas used will be from 12:00 o'clock noon one day until 12:00 o'clock noon the next day. NWPS shall have the right to curtail or limit a customer's use of gas during any billing day to the Contract Demand then in effect when demand by firm and higher priority interruptible natural gas purchasers exceeds available pipeline supply. Curtailment of interruptible gas will commence at 12:00 o'clock noon at the start of a new billing day. Under normal circumstances, notice of curtailment of interruptible gas will be given to the customer prior to 10:00 o'clock A.M. of the calendar day in which curtailment is to begin.

In cases of emergency, however, any notice prior to 12:00 o'clock noon is deemed to place the curtailment in effect at 12:00 o'clock noon, and such curtailment shall continue in effect until NWPS notifies the customer that the curtailment is released. In cases of emergency when notice of curtailment cannot reasonably be given immediately prior to a new billing day, a customer will cooperate with NWPS by curtailing its use of interruptible gas as soon as possible after notice of curtailment by NWPS.

Proper notice of curtailment will be deemed to have been given when any person or persons authorized to receive curtailment orders on behalf of the customer has been notified by telephone or in person by a representative of NWPS. →

7

6

for Interruptible Customers, continued.

NWPS will endeavor to give a customer as much notice as possible with respect to curtailment of service. A customer must provide and maintain complete standby facilities and have available at all times sufficient standby fuel to maintain coninuous plant operations during complete curtailment in the delivery of natural gas.

# **OPTIONAL RATES**

When a customer qualifies for two or more ates, the choice of such rates lies with the cusomer. A customer who believes he may qualify or service under more than one rate schedule, should contact NWPS for advice on what alternatives are available.

New electric customers or those with increased oad requirements may find NWPS's New Business Incentive Rider (Option N), Increased Usage Incentive Rider (Option I), or Discounted Energy Option Rider (Option X) will result in energy cost savings for their firms.

In addition, customers who operate at a high oad factor or improve their load factor will benefit from lower cost energy. Load factor is the measure of the efficient use of electrical demand requirements.

# AN ESTIMATED UTILITY BILL

You may receive an estimated bill when an NWPS employee cannot read your meter. Esimated bills are indicated as such and are based upon your previous use of electricity or natural gas. For electric customers with demand metering, such meters must be read monthly.

If you have questions about an estimated bill, please phone or stop at the nearest NWPS office. Every effort will be made to answer all of your questions.

## PATING TOUR BILL

You may pay your bill by mail. A send-and-return envelope is included with your bill for this purpose. Send the part of your bill that is marked "PLEASE RETURN THIS PORTION WITH YOUR PAYMENT" along with your check or money order.

You may also pay your bill personally at your local NWPS office. Please bring the entire bill with you. An after-hours deposit box is also available at many NWPS offices.

If for any reason, you cannot pay your NWPS bill when it is due, please call your local NWPS office to explain the situation and to make arrangements for paying your bill.

# LATE PAYMENT CHARGE

NWPS has been authorized to include a "Late Payment Charge" on delinquent billings. The charge was authorized because delinquent accounts create an added cost for all customers and not just those who create the problem.

Under the customer billing rules approved by the PUC, utility bills are payable upon receipt. Located at the lower left side of your bill (just above the perforation) is a box which reads: "A LATE PAYMENT CHARGE OF \_\_\_\_\_\_ WILL BE ASSESSED IF PAYMENT IS NOT RECEIVED IN OUR DIVISION OFFICE BY NEXT BILLING." If a customer bill is not paid before the next bill is issued, a late payment charge will be applied to any account having an unpaid balance of \$5.00 or more. The late payment charge will be 1% of the unpaid balance, plus a collection charge of \$2.00.

If you are having problems in paying your utility bill, we will make every reasonable effort to work with you.

9

#### MEASURING YOUR ENERGY USAGE

## Meter Reading

Normally, your electric and/or natural gas neter is read each month by an NWPS employee. This reading is made at intervals which coincide as closely as possible with a 30-day cycle. This nonthly visit also gives our meter readers a periodic opportunity to inspect facilities used for natural gas and electric distribution.

## Meter Testing

NWPS conducts a regular program of periodic esting customers' meters. You may request NWPS to test the electric or gas meter, and you have the right to be present when the test is conducted. If the test request is made within a year after a previous request, you will be required to pay a deposit. The deposit will be refunded if the meter is found to have an error of 2% or more. The result of this test will be supplied to you within one week after the test is completed.

If a meter is found to have an error of 2% or more, a charge or refund covering the error will be nade. The time period for this charge or refund nay not exceed six months, unless it can be established that the error was due to some cause, the date of which can be fixed with reasonable certainty, in which case the refund or charge shall be computed from that date.

## Metering Equipment

NWPS furnishes customer meters; however, sustomers are required to furnish, install, and naintain their own meter mounting devices, such as meter sockets, meter pedestals, and metering inclosures.

For gas installations the customer furnishes, owns, and maintains all fuel piping, equipment, appliances, and other devices necessary to distribute gas service from the point on the outlet side of the twps meter.

A customer is not permitted to receive power or energy through one meter and resell such power or energy to another user through separate meters, regardless of who owns the meter serving the ultimate user.

## Master Metering Restrictions

All buildings, mobile home parks, and trailer courts for which construction was begun after June 13, 1980, shall be metered separately for each residential or commercial unit, with the exception of hospitals; nursing homes; transient hotels and motels; dormitories; campgrounds; other residential facilities of a purely transient nature; central heating or cooling systems; central ventilating systems; central hot water systems; residential multiple occupancy building of only two units, one of which unit is occupied by the owner of the building; and multiple occupancy buildings constructed, owned, or operated with funds appropriated through the Department of Housing and Urban Development or any other federal or state government agency.

Any existing multiple occupancy building receiving master metered service which is substantially remodeled or renovated for continued use as a multiple occupancy building, if such remodeling or renovation is begun after June 13, 1980, shall be individually metered, unless the building meets any of the exceptions listed above or unless the owner of such building demonstrates to the satisfaction of the PUC that conversion from master metering to individual metering would be impractical, uneconomical, or unfeasible.

The restrictions against master metering contained in the preceding paragraph are waived to the extent requests for variances are granted by the PUC.

## RESALE OF UTILITY SERVICE PROHIBITED

Utility service furnished by NWPS under any ate schedule may not be resold by the customer in ny manner.

# **CUSTOMER CONNECTION CHARGE**

NWPS has been authorized to include a "Customer Connection Charge" in its billing procedures. Use of the Customer Connection Charge will more accurately identify costs to NWPS's customers by assuring that those customers who are esponsible for the expenses of connection or econnection will pay for them. Under this tariff rovision, any customer who moves into or relocates within NWPS's service area, and who requests utility service, will be assessed a service onnection charge.

That charge also applies to reconnection of serice, as in the case of a meter which may have been emporarily disconnected. The charge will be 10.00 for all connections made during normal susiness hours (8 a.m. to 5 p.m., Monday through friday, excluding legal holidays) and \$15.00 for onnections made during other hours. The charge will be included on the customer's first utility bill fter the connection is made.

# **CONTINUITY OF SERVICE**

NWPS attempts to provide continuous service out cannot guarantee an uninterrupted or undistribed supply of electric or natural gas service. The Company is not responsible for any loss or amage resulting from the interruption or disturance of service for any cause other than gross egligence by NWPS or its employees, and NWPS is not liable for any loss of profits or other consequential damages resulting from the use of service or any interruption or disturbance of service. IWPS urges its customers to install regulating or

protective devices to protect their appliances from potential damage from interruptions in energy supply or fluctuations in service from NWPS.

# IF YOU SHOULD HAVE A COMPLAINT

NWPS believes it is important that you are satisfied with your electric or natural gas service. However, sometimes a question, misunderstanding, or complaint may develop. If it does, please let us know. In most cases, the problem will be solved through a visit or phone call to your nearest NWPS office. Our employees are trained to help you.

NWPS will make a full and prompt investigation of all complaints received. Please address all written complaints to the Division Manager at your nearest NWPS Division office. The address is listed in your local telephone directory.

# IN CASE OF A DISPUTE

Whenever a customer advises NWPS before the disconnection of electric or natural gas service that any part of the billing, charges, or service is in dispute, NWPS shall:

- 1. Investigate the dispute promptly;
- Advise the customer of the investigation and its result;
- Attempt to resolve the dispute; and
- Withhold disconnection of service during such investigation, provided the customer pays the undisputed portion of the bill.

If the dispute is not resolved, NWPS will notify the customer that he or she may appeal to the PUC within ten (10) working days after the disconnection notice was sent for resolution of the dispute.

# **ESTABLISHING UTILITY CREDIT**

Most customers of NWPS are prompt in paying heir monthly bills, a fact which we appreciate very much. Some customers, however, seem to find it difficult to maintain a prompt payment record. In cases such as these, NWPS has found it necessary to establish certain policies and procedures to deal with non-payment of bills. These policies and procedures are designed to protect not only NWPS, but also the customers who do maintain prompt bayment records.

The credit history of anyone applying for service with NWPS will be reviewed. If a customer demonstrates satisfactory credit by traditional means or by providing his payment history with his prior utility company, no security deposit will be required. A customer who does not establish satisfactory credit will be required to establish credit by one of the four means listed below. If a deposit is required of a customer, it will be returned with interest at the end of any twelve-month period during which the customer has demonstrated satisfactory credit, as defined below.

A present customer who has had one or more disconnections of service in the last year or three or more disconnection notices in the last year or has an undisputed outstanding debt with NWPS shall be deemed to have demonstrated unsatisfactory credit. In the event that a customer demonstrates unsatisfactory credit, NWPS will require that the customer:

- Make a cash deposit of one-sixth (1/6) of the customer's estimated annual bill. Deposits will earn seven percent (7%) simple interest per year from the date of deposit to the date of disconnection; or
- Provide a letter of credit or post a surety bond; or
- Be placed on an early payments list wherein the customer agrees to pay the bill for utility

services within five (5) business days after it is received; or

4. Negotiate another option with NWPS.

If a customer is unable to pay the full amount of the deposit, NWPS will accept payment of the deposit in reasonable installments over a period not to exceed four months.

## DISCONNECTION OF SERVICE

If you want to have your electric or natural gas service disconnected as the result of moving or for some other reason, you should let NWPS know at least one business day before you want this discontinuation. You may do this by letter, by personal visit, or by a phone call to your local NWPS office.

Naturally, if a utility bill is not paid within a reasonable length of time, the customer who owes it cannot expect to continue to receive electric or natural gas service from NWPS.

We do not like to disconnect or refuse service to a customer, but sometimes it must be done. The customer will be notified before such action is taken if the reason is:

- 1. Non-payment of a utility bill;
- 2. The customer has failed to pay a required deposit or meet the credit requirements;
- The customer has violated NWPS's rules on file with the PUC (these rules are available for customer inspection at any NWPS office);
- 4. The customer has breached the terms of the contract for service with NWPS or has failed to furnish those things necessary to obtain utility service; or
- The customer has failed to allow NWPS employees access to Company equipment located on customer premises for meter reading, inspection, maintenance, replacement of equipment, or to conduct investigations for hazardous conditions. →

If at any time a hazardous condition is discovered, NWPS may immediately discontinue service until the hazardous condition is corrected. Also, NWPS may immediately discontinue service if unauthorized use or tampering with NWPS's service equipment is discovered. When possible, NWPS will attempt to provide advance notice of discontinuance to all customers affected.

The following is a list of conditions, all of which are considered before a customer will be disconnected for non-payment of a bill:

- A customer may be receiving more than one class of service from NWPS. Only the class of service for which payment is delinquent may be disconnected.
- Bills are due when received. Bills become delinquent twenty (20) days after the billing date. This period may be shortened if the customer's name is on the early payments list. This time period may be waived in cases of fraud, illegal use, or when it is clearly indicated that the customer is preparing to leave. If a customer's bill becomes delinquent, the customer has an additional ten (10) days in which to pay the bill to avoid disconnection.
- If this is the customer's first disconnection notice, NWPS will attempt to notify the customer by telephone, personal visit, or certified mail and will provide the customer information about his right to appeal to the PUC.
- If the customer has been unwilling to pay the bill in full or enter into a reasonable agreement with NWPS to pay the service bill, service will be disconnected.

- or just dispute concerning the bill exists. A dispute is only defined as bona fide and just if the customer pays the undisputed portion of the bill and contacts the PUC with the unresolved dispute within ten (10) working days after the disconnection notice was sent.
- Electric or natural gas service will not be disconnected on any Friday, Saturday, Sunday, or legal holiday, or at any time when NWPS's business offices are not open to the public.
- If a customer receives both gas and electric service from NWPS, he may have payments applied to either the gas or electric portion of his bill in order to avoid disconnection of that service.
- 8. In a landlord-tenant situation, where the meter is in the landlord's name, NWPS will not disconnect the utility service until the tenant has been offered the opportunity to put the electric or natural gas service in his or her name where it is economically feasible to do so, and the tenant has turned down this offer.

If service is disconnected for nonpayment, it will not be restored without payment of the outstanding bill and a reconnection fee and the furnishing of adequate security for the utility account.

# **CALL BEFORE DIGGING**

If you are planning any excavation or construction on or near your property, please call the local NWPS office 48 hours in advance for location of underground distribution facilities.

Northwestern Public Service Company
